Outdoor Day – Tuesday 12 September

Dear parents and carers,

As part of our history topic this term we will be learning all about the Stone Age. To make this an immersive experience for the children we are arranging an outdoor day where they will be exploring some artefacts, working on their cooking skills, thinking about the importance of fire safety, and using stone age techniques such as tracking.

Please send your child to school in suitable outdoor clothing, they will not require a change of clothes as they will remain in their outdoor clothing for the entire day. Please ensure these clothes are suitable for the weather on the day. For example, wellies, waterproof clothing and a waterproof coat if it forecasts rain, and a hat with sun cream if sunny.

Many thanks,

J Brockington

V Harris

Miss Brockington

Mrs Harris
