

Foundation Stage - Growing Galore

This term our topic is 'Growing Galore'. This is the key vocabulary linked to our learning this term. Please help your child to understand and familiarise themselves with these words and definitions, referring to them as often as possible. Thank you!

Chicks

Life cycle - the different stages an animal/plant goes through during its life.

Chick - a newly hatched bird.

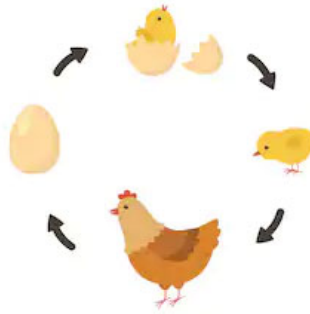

Chicken - an animal with feathers that lays eggs and usually lives on a farm.

Hen - a female chicken.

Egg - a round object laid by an animal.

Hatch - when a baby emerges from its egg.

Nest - a place made where a bird will lay eggs and shelter their young.

Plants

Plant - a living organism such as flowers or trees.

Seed - the small part produced by plants from which new plants grow.

Grow - something developing over time.

What a plant needs to grow

Light - plants need light from the sun in order to grow.

Water - a liquid. Transports nutrients around the plant.

Soil - keeps the plant/flower in place. Provide the plant with water, nutrients and minerals.

Parts of a Plant

Parts of a plant

Flower - are colourful and attract bees, butterflies and birds.

Stem - keeps a plant upright.

Leaf - make food for the plant.

Roots - keep a plant in the ground.
