BENEDICT'S LAW

Keeping everyone safe from serious allergic reactions

You may have heard about Benedict's Law, which is helping schools to be better prepared for allergy emergencies. We now have a Kitt Medical emergency allergy kit in school, which contains spare adrenaline pens. These can be used if anyone on our school site has a serious allergic reaction—even if they do not have a known allergy. All staff have completed training so they know what signs to look out for and how to respond quickly. The kit is easy to access and available throughout the school day, giving everyone in our school community an extra layer of protection and reassurance.

VAPING

We would like to remind our families that vaping is prohibited on school grounds. This rule applies during drop-off and pick-up times, as well as anytime you are on-site or waiting.

DATES

October
